Brulin #2.1

TerraGreen

Bio-Cleaner/Degreaser

NO-RINSE, DEEP CLEANING TILE & GROUT CLEANER

FOOD SERVICE

BIO CLEAN DEEP DOWN

Removes the primary cause of slippery floors in food prep areas ...and it's **GREEN!**

Combines traditional cleaning agents with residual bio-enzymes. Simply mop on, scrub if necessary and remove excess solution — No rinsing required.

- Initially cleans and degreases surfaces
- Bio-enzymes go deep down into pores and grout to digest packed-in grease
- Works 24/7
- Continues after the floor dries
- Continues between applications — reducing grease accumulation

WORKS 24/7 TO REMOVE THE PRIMARY CAUSE OF SLIPPERY FLOORS

GREEN CERTIFIED

CERTIFIED EcoLogo™

Independently certified as green by Ecologo

- Eliminates guesswork of dealing with misleading terms like natural, 100% biodegradable, safe, etc.

SIMPLIFIES GUESSWORK

GREEN...& GREEN PLUS

- **Saves Energy** — use warm or cold vs. hot water
- **Saves Water Consumption** — eliminating rinse step saves at least 4 gallons of water every time you clean
- **Saves Labor** — no rinse, no extra maintenance step
- **Economical** — walk away with 50% savings compared to leading national brands

GREEN & ECONOMICAL — SAVES ENERGY, WATER, LABOR AND DOLLARS

TerraGreen
Bio-Cleaner/Degreaser

DEEP CLEANING, NO-RINSE, TILE & GROUT CLEANER

TerraGreen Bio-Cleaner/Degreaser combines traditional cleaning agents with residual bio-enzymes to deep clean surfaces, deep down into pores and grout. Continual bio-action digests grease even after the floor dries and between applications to reduce occurrence of slippery greasy floors. EcoLogo™ Certified — independently proven to be an environmentally responsible cleaner. Green plus economical. Use of cold or warm water saves energy, Requires no rinsing, saves labor and water consumption. For use on quarry tile, ceramic tile, concrete, brick, or any grouted floor surface.

CLEANING STEPS

Do not use with bleach or sanitizer.

1 Sweep:
Floor and clean up spills. Place caution signs.

2 Mix:
2-4 oz TERRAGREEN BIO-CLEANER/DEGREASER per gallon of warm or cold water in a clean mop bucket (1:64 - 1:32).

3 Apply:
Solution using a clean mop. Change solution prior to soil overload.

4 Scrub (If Necessary):
Floor with stiff bristled brush on areas with heavy soil/grease build-up.

5 Remove:
Excess solution on floor with mop or squeegee toward drain.

6 Dry:
Allow floor to dry thoroughly. DO NOT RINSE.
Note: Keeps on working
