The Gallup-Indiana Survey results will be an important part of the Indiana's College Value Index released this fall. The Indiana College Value index is a first-in-the-nation, comprehensive measure of higher education value that brings together the Commission's existing data on college readiness, college completion, student debt, employment, average earnings and this qualitative data on graduate satisfaction.

GALLUP

National Comparisons

GPI National

For the purposes of this summary report, data from individual college’s alumni are compared with data collected from respondents who graduated between 1939-2015 in the national Gallup-Purdue Index. This includes those who received their bachelor’s degrees from Title IV degree-granting four-year public, private, for-profit and not-for-profit institutions in the U.S. as defined by the U.S. Department of Education.

Some differences may exist between the national comparison points included in this summary and national estimates that Gallup has previously released because this summary focuses on graduates who received their undergraduate degrees from 1939-2015.

Indiana Universities (GPI National: Indiana Alumni)

Additionally, individual college’s alumni are also compared with respondents who graduated between 1939-2015 from a university or college in Indiana in the national Gallup-Purdue Index. This includes those who received their bachelor’s degrees from Title IV degree-granting four-year public, private, for-profit and not-for-profit institutions in Indiana as defined by the U.S. Department of Education.

Some differences may exist between the Indiana comparison points included in this summary and estimates that Gallup has previously released because this summary focuses on graduates who received their undergraduate degrees from 1939-2015.

Vincennes	48
WGU Indiana	43
All Participants	48

Gallup research has also found many alumni measures to be correlated with age (i.e. graduation year), and care must be taken in comparing these metrics across individual schools.

All Participating Indiana Schools

The study participants include alumni who received bachelor’s degrees from the following universities: Ball State University, Butler University, Calumet College of St. Joseph, Grace College and Theological Seminary, Indiana University East, Indiana University Kokomo, Indiana University-Purdue University Fort Wayne, Manchester University, Marian University, Taylor University and Western Governors University Indiana; and also includes alumni who received associate degrees from Ivy Tech Community College and Vincennes University were also interviewed as part of this study.

Methodology

Gallup-Purdue Index

Results for the Gallup-Purdue Index, the national study used for comparison purposes, are based on Web surveys conducted December 16, 2014 - June 29, 2015, with a random sample of 30,151 respondents with a bachelor’s degree or higher, aged 18 and older, with Internet access, living in all 50 U.S. states and the District of Columbia.

The Gallup-Purdue Index sample was recruited via the Gallup Daily Tracking survey. The Gallup Daily tracking

INDIANA COMMISSION for HIGHER EDUCATION

survey sample includes national adults with a minimum quota of 50 percent cellphone respondents and 50 percent landline respondents, with additional minimum quotas by time zone within region. Landline and cellular telephone numbers are selected using RDD methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday. Gallup Daily tracking respondents with a college degree, who agreed to future contact, were invited to take the Gallup-Purdue Index survey online.

Gallup-Purdue Index interviews are conducted via the Web, in English only. Samples are weighted to correct for unequal selection probability and nonresponse. The data are weighted to match national demographics of gender, age, race, Hispanic ethnicity, education, and region. Demographic weighting targets are based on the most recent Current Population Survey figures for the aged 18 and older U.S. bachelor's degree or higher population.

All reported margins of sampling error for the Gallup-Purdue Index of all college graduates include the computed design effects for weighting.

- For results based on the total sample of those with a bachelor's degree, the margin of sampling error is ± 0.8 percentage points at the 95 percent confidence level.
- For results based on employee engagement of those with a bachelor's degree, the margin of sampling error is ± 1.1 percentage points at the 95 percent confidence level.
- For results based on the sample of those with a bachelor's degree from an Indiana university or college, the margin of sampling error is ± 4.8 percentage points at the 95 percent confidence level.
- For results based on employee engagement of those with a bachelor's degree from an Indiana university or college, the margin of sampling error is ± 6.4 percentage points at the 95 percent confidence level.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls.

Ball State University

Results for the Ball State University study are based on Web surveys conducted November 30 - December 28, 2015 with a sample of 4,216 Ball State University undergraduate degree alumni who received their undergraduate degrees from 1970-2014. The sample of alumni email addresses was provided by Ball State University. Alumni were included in the study if the institution had an email address on file.

Butler University

Results for the Butler University study are based on Web surveys conducted February 22 - March 22, 2016 with a sample of 4,696 Butler University undergraduate degree alumni who received their undergraduate degrees from 1950-2015. The sample of alumni email addresses was provided by Butler University. Alumni were included in the study if the institution had an email address on file.

Calumet College of St. Joseph

Results for the Calumet College of St. Joseph study are based on Web surveys conducted March 14 - April 12, 2016 with a sample of 158 Calumet College of St. Joseph undergraduate degree alumni who received their undergraduate degrees from 2000-2015. The sample of alumni email addresses was provided by Calumet College of St. Joseph. Alumni were included in the study if the institution had an email address on file.

Grace College

Results for the Grace College and Theological Seminary study are based on Web surveys conducted January 18 - February 16, 2016 with a sample of 1,135 Grace College and Theological Seminary undergraduate degree alumni who received their undergraduate degrees from 1950-2015. The sample of alumni email addresses was provided by Grace College and Theological Seminary. Alumni were included in the study if the institution had an email address on file.

Indiana University-Purdue University Fort Wayne

Results for the Indiana University-Purdue University Fort Wayne study are based on Web surveys conducted January 18 - February 16, 2016 with a sample of 1,293 Indiana University-Purdue University Fort Wayne undergraduate degree alumni who received their undergraduate degrees from 1960-2015. The sample of alumni email addresses was provided by Indiana University-Purdue University Fort Wayne. Alumni were included in the study if the institution had an email address on file.

Indiana University East

Results for the Indiana University East study are based on Web surveys conducted February 1 - March 1, 2016 with a sample of 292 Indiana University East undergraduate degree alumni who received their undergraduate degrees from 1980-2015. The sample of alumni email addresses was provided by Indiana University East. Alumni were included in the study if the institution had an email address on file.

Indiana University Kokomo

Results for the Indiana University Kokomo study are based on Web surveys conducted February 1 - March 1, 2016 with a sample of 402 Indiana University Kokomo undergraduate degree alumni who received their undergraduate degrees from 1970-2015. The sample of alumni email addresses was provided by Indiana University Kokomo. Alumni were included in the study if the institution had an email address on file.

Ivy Tech Community College

Results for the Ivy Tech Community College study are based on Web surveys conducted November 30 - December 28, 2015 with a sample of 809 Ivy Tech Community College associate degree alumni who received their associate degrees from 2000-2015. The sample of alumni email addresses was provided by Ivy Tech Community College. Alumni were included in the study if the institution had an email address on file.

Manchester University

Results for the Manchester University study are based on Web surveys conducted January 25 - February 23, 2016 with a sample of 2,500 Manchester University undergraduate degree alumni who received their undergraduate degrees from 1950-2015. The sample of alumni email addresses was provided by Manchester University. Alumni were included in the study if the institution had an email address on file.

Marian University

Results for the Marian University study are based on Web surveys conducted March 14 - April 12, 2016 with a sample of 1,237 Marian University undergraduate degree alumni who received their undergraduate degrees from 1950-2015. The sample of alumni email addresses was provided by Marian University. Alumni were included in the study if the institution had an email address on file.

HIGHER EDUCATION

GALLUP

Taylor University

Results for the Taylor University study are based on Web surveys conducted February 8 - March 8, 2016 with a sample of 4,260 Taylor University undergraduate degree alumni who received their undergraduate degrees from 1939-2015. The sample of alumni email addresses was provided by Taylor University. Alumni were included in the study if the institution had an email address on file.

Vincennes University

Results for the Vincennes University study are based on Web surveys conducted January 25 - February 23, 2016 with a sample of 981 Vincennes University associate degree alumni who received their associate degrees from 1950-2015. The sample of alumni email addresses was provided by Vincennes University. Alumni were included in the study if the institution had an email address on file.

WGU Indiana

Results for the Western Governors University Indiana study are based on Web surveys conducted February 1 - March 1, 2016 with a sample of 457 Western Governors University Indiana undergraduate degree alumni who received their associate degrees from 2010-2016. The sample of alumni email addresses was provided by Western Governors University Indiana. Alumni were included in the study if the institution had an email address on file.
