

INDIANA COMMISSION *for* HIGHER EDUCATION

Stan Jones Student Success Award

Purpose

The *Stan Jones Student Success Award* will recognize a campus partner with promising student success practices. Named after the late Stan Jones, the award builds upon his legacy of several landmark education policy and student support initiatives, including the 21st Century Scholarship Program, an early promise scholarship aimed at increasing the number of low-income students attending and completing a postsecondary education. One award will be distributed to a campus partner with promising practices that support student success initiatives on their campus and beyond. The *Stan Jones Student Success Award* specifically recognizes one exemplary program or initiative focused on increasing the college-going rate, postsecondary completion, or graduate retention in Indiana.

Award Overview

The *Stan Jones Student Success Award* is designed to recognize and uplift one promising student success practice at a public or private Indiana higher education institution. The award-winning campus partner will be expected to give a virtual presentation at the 2023 Student Advocates Conference.

Criteria for Selection

Award applications will be collected through November 10, 2023. A selection committee of three or more will review all completed applications. The team will be comprised of Commission staff. Scoring will be based on how well applications address the five components required in the award application. The applications will be scored using a rubric that assesses the following:

1. Innovation;
2. Impact on student success;
3. Ability of the student success model to be scaled and replicated at other institutions;
4. Dedication to increasing the college-going, completion, and graduate retention rates of Hoosier students (especially those who are 21st Century Scholars, Frank O'Bannon recipients, Black or Hispanic/Latino, and/or first-generation);
5. Commitment to expand and sustain the program by working with other institutions and partners to assist with implementation.

Priority will be given to strategies that engage multiple partnerships, are easily replicated across other institutions, and demonstrate proven student success metrics.
