1.3 PURPOSE OF THE RFP

The purpose of this RFP is to select a vendor that can redesign (including UX and UI) the Learn More Indiana [website](#) and incorporate SEO.

1.4 BACKGROUND

Led by the Indiana Commission for Higher Education (CHE), Learn More Indiana (LMI) is a partnership of state and local organizations working to help Hoosiers of all ages complete education and skills training beyond high school.

LMI is the public-facing brand of Indiana’s higher education system, state financial aid, and workforce and education preparation. It informs Hoosier students and families, educators and community partners of the benefits that higher education and training provide while including resources to make it affordable. LMI wants to help Hoosiers from a young age believe that they are capable of pursuing higher education and to break down the barriers that exist to get there.

The LMI brand strives to be informative, fun, casual, non-threatening and trustworthy. The Commission recently completed a research project assessing the perceived value of higher education among Hoosiers using quantitative and qualitative data which—among other key findings—show that students and families do not consider government as a trustworthy source. For that reason, LMI must become a trusted messenger to inform Indiana residents of the state’s higher education resources to help them succeed in life after high school.

The [learnmoreindiana.org](#) website is one channel (in addition to social media, email, occasional paid digital campaigns, printed materials and a field outreach team) that we depend on to communicate this information to the public.

Recently, CHE and LMI have been tasked with creating new content and promotion of the [Indiana College Core](#), (which is housed on our sister site, [TransferIN.net](#)) as well as a brand new tool (not yet created) that will be a more comprehensive version of the [School Finder Tool](#). In order to establish the Indiana College Core and the new School Finder Tool on the existing LMI website, increase site visits and user engagement for both resources, and begin communicating about them, **it’s imperative that we first redesign the site to make information more accessible and applicable across all audiences.**

Project Goals:

- To increase the number of visits and visitors
- To be easily navigable for *all* audiences: students, families/parents, educators and community partners

- To serve as a valuable, credible, sought-after resource for educators in the classroom, providing them with fun and engaging activities for students
- To be accessible and usable for Hoosiers of all ages
- To be findable and enhance current SEO rankings (rank highly in SERPs)
- To establish new content such as the Indiana College Core and School Finder Tool and prepare content for future marketing and promotion

Anticipated Launch Date: ~14+ weeks after project start date

The services sought in this RFP are to support the Commission with its obligations under this project and this law, including the direct outreach, triage of responses and the reporting of data to the General Assembly.

1.5 SUMMARY SCOPE OF WORK

The Commission for Higher Education seeks a vendor to redesign, audit and enhance the LMI website which currently uses WordPress CMS **using a budget of \$100,000, \$75,000 or \$50,000**. Detailed cost breakdown must be included for each level of budget submitted.

Current pain points with the site that should be addressed by the end of this project include:

Site Architecture/User experience

- Users are overwhelmed when entering the website. They cannot locate the resources they seek.
- Navigation is complex and unclear (page speed and dwell time are problematic)
- Users don't understand the purpose of the LMI brand or what to do once they arrive to the site. They aren't sure of how LMI can help them
- The LMI website lacks clear calls to action to convert leads and reduce bounce rate

Content overload

- Site includes redundant content in multiple areas and a very large resource library. Content should be refreshed for SEO and resources must be pared down and prioritized

Learn More Indiana has three primary audiences:

1. Students of all ages including adult learners
2. Parents/families
3. Partners: counselors, educators, stakeholders

Services sought include, but are not limited to:

Site Audit & Analysis

A thorough website audit should be performed to guide this project. Site audit should include the following:

- Content audit
- Performance Analysis
- Architecture Analysis
- UX Analysis
 - User research
- SEO Audit
- Indexation Audit
 - Auditing current indexable URLs and determining which need to be removed due to low content, irrelevant info for searchers, etc.
 - Remove any unnecessary pages from index

Website & UX Design

- Implement a responsive or adaptive web design approach
 - Traffic comes to the LMI site primarily from desktop; however, we know it's crucial to redesign to a mobile/tablet-first approach. Our audience uses a variety of technology to access the site and in various settings. **Google Analytics access will be provided.**
 - Vendor will be responsible for developing the best strategy for design method: responsive vs. adaptive

SEO Strategy & Management

- Keyword research and strategy implementation
- Technical: site architecture, crawl errors, sitemaps, etc.
- Coding-related: permalinks, alt-image tags, canonical tags, etc.
- Content: backlinks, readability, blog strategy, etc.
- Zero-click elements: schema markup, Google Knowledge Graph, etc.
- Social elements: open graph implementation, YouTube content, etc.
- Build and implement a full site architecture plan that includes a rebuild of page segmentation and structure to optimize site usability (on-page content adjustments, meta tags, etc.)
- 301 redirect old pages to new
- Some SEO copywriting may be necessary

We envision this project taking a phase-driven approach that could look similar to what's outlined below but will expect the chosen vendor to determine the best strategy.

Phase 1: Strategy, Discovery, Audit

- Kickoff meeting
- Website strategy
- Informational architecture
- Wireframe
- SEO keyword analysis
- SEO copywriting (if applicable)

Phase 2: UI/UX Design

- At least 3 homepage concepts
- Internal page design
- UI/UX research and testing to determine best approach across all audiences

Phase 3: Development

- Theme development (WordPress)
- Possible email marketing integration (GovDelivery), or email marketing strategy recommendations
- Analytics configuration
- Quality control testing: cross browser, cross device, page speed
- Website training
- Launch (~14+ weeks from project start date)

These figures are only an estimate and are not to be construed as an amount to be offered under this RFP.

However, when completing Minority and Women’s Business Enterprises Participation Plan Form (Attachment A) and Indiana Veterans’ Participation Plan Form (Attachment A1) please use the total bid amount from the Cost Proposal.
