**State of Indiana**  
**Financial Schedules Explanation**  
**Fiscal Year Ended June 30, 2018**

Financial schedules provided in this report are:

1. Schedule of Revenue
2. Schedule of Expenditures
3. Agency Appropriation and Allotment Trial Balance Report

These schedules satisfy a portion of the financial reporting requirements prescribed by Indiana Code (IC) 4-10-13-2. The balance of the reporting requirements prescribed by IC 4-10-13-2 is satisfied by the State of Indiana's separately issued Comprehensive Annual Financial Report.

The schedules contained in this report are detailed by PeopleSoft (PS) fund, Comprehensive Annual Financial Report (CAFR) fund, account, and business unit.

**PS Fund**

A fund is a fiscal and accounting entity with a self-balancing set of accounts recording financial activity, which is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

In the State of Indiana's accounting system a PS fund is self-balancing. PS funds are used to identify the financial activities by business unit or purpose. Schedules 1 and 2 include the name of each PS fund.

**CAFR Fund**

The State of Indiana utilizes the CAFR fund for fund type classifications. Fund types are broken down into governmental, proprietary, and fiduciary fund types.

Governmental Funds

Governmental funds are the general fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds are used to account for governmental type financial activity.

The general fund is the chief operating fund of a government and is used to account for the financial activity of the government, except for the activity that is required to be accounted for in some other fund. The State of Indiana's general fund is CAFR fund number 1000.

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. The State of Indiana's special revenue funds are CAFR fund numbers 2010-2780, 2800-3200, 3230-3240, 3280, 3300-3790, 3880-3900, 3920, 3940, 3970-4260, 4580-4670, 4900, 5000, 5030-5060, 5120, 5230-5350, 5410-6020, 6040-6090, 6110-6280, 6310-6340, 6360-6380, 6410, 6440, 6460-6480, 6540, 6570, 6610, 6650-6660, 6710, 6750, 6780-6830, 6850-6880, 6910-6930, 6960, 8000-8097, 9102-9104, 9108, & 9112.

Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. The State of Indiana does not have a fund that meets these standards.

Capital project funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The State of Indiana's capital projects funds are CAFR fund numbers 3260, 3290, 3800, 3910, 3950, and 6350.

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs. The State of Indiana's permanent funds are CAFR fund numbers 4270, 6620, and 6670.

#### Proprietary Funds

Proprietary funds are used to account for business type financial activity and the fund types in this group are enterprise and internal service funds.

Enterprise funds are used to account for revenue generated by charges for a service provided to the public, where the intent of the government is to recover all or most of the cost through a charge for the service (user fees). The State of Indiana's enterprise funds are CAFR fund numbers 5360, 6720-6740, and 6760-6770.

Internal service funds are used to account for revenue generated by charges for services provided between departments or agencies within governmental units or between governmental units, on a cost reimbursement basis. The State of Indiana's internal service funds are CAFR fund numbers 5110, 5150, 5160, 5220, 6940, 9109, and 9117.

#### Fiduciary Funds

Fiduciary funds are used to account for agent or fiduciary financial activity. The fund types in this group are private-purpose trust funds, agency funds, and pension and other employee benefit trust funds.

Private-purpose trust funds and agency funds are used to account for the financial activity of either a trust arrangement where the governmental unit is permitted to expend the trust assets or in an agency capacity where revenue is received in a custodial capacity. Private-purpose trust and agency funds function much like a governmental fund. The State of Indiana's private-purpose trust funds and agency funds are CAFR fund numbers 2790, 3220, 5140, 6030, 6100, 6400, 6420, 6450, 6680, 6890, 6990, 7010, 7020, 9000, 9100, 9101, 9113, & 9115-9116.

Pension and other employee benefit trust funds are used to account for the financial activity in pension plans where the governmental unit manages the plan or the plan is considered a unit of the governmental unit. The State of Indiana's pension and other employee benefit trust funds are CAFR fund numbers 3930, 6510-6520, 6550-6560, 6580-6605, 6625, 6840, and 6950.

### Other Fund Types

Certain funds are used to account for the financial activity of agencies that are component units and that do not fit one of the three fund types. The CAFR fund numbers for these funds are 4680-4880, 6290, 6690, 9001, 9107, 9111, 9114, 9261-9263, and 9878.

### **Account**

Accounts used in these schedules describe revenues and expenditures. The revenue account is listed next to the revenue description in the source of revenue column of the Schedule of Revenue. In the State of Indiana's chart of accounts, revenue accounts begin with the numbers 4, 64, or 74. The first two digits of the revenue account indicate the revenue type as follows:

|           |          |  |
|-----------|----------|--|
| <b>40</b> | <b>=</b> | <b>Revenue Adjustments</b>                             |

| <b>74</b> | <b>=</b> | <b>Other Financing Sources</b>                         |

The expenditure account is listed next to the expenditure description on the Schedule of Expenditures. Expenditure accounts begin with the numbers 5, 65, or 75. In the State of Indiana's chart of accounts the expenditure account indicates the expenditure type as follows:

|           |          |   |
|-----------|----------|---|
| <b>50</b> | <b>=</b> | <b>Expense Adjustments</b>                      |

| <b>75</b> | <b>=</b> | <b>Other Financing Uses</b>                     |

### **Pt (Point)**

The Pt column of the Agency Appropriation and Allotment Trial Balance Report denotes the major expenditure category. The second digit of the expenditure account is the point for accounts 51 through 59. Expenditure accounts that begin with 51 mean that point 1 is for the personal services & fringe benefits major expenditure category. Point 0 is the total operating expenditure category.

**Ctrl (Control)**

The expenditure of resources is controlled through the adoption of budgets referred to as appropriations. These appropriations are established by either legislative action, statutory authority, or functionality of the PS fund. The State of Indiana further controls expenditures with an allotment system. An appropriation is not available for expenditure until it has been allotted. Appropriations are allotted by either action of the state budget director, statutory authorization, or the functionality of the PS fund.

The allotment system is administered by the State of Indiana's accounting system through the designation of the budgetary control of each PS fund. The budgetary controls are divided into five categories; a control 3 PS fund; a control 4 PS fund; a control 5 PS fund; a control 6 PS fund; or a control 7 PS fund.

The control of each PS fund is indicated in the "CTRL" column on the Agency Appropriation and Allotment Trial Balance Report.

The appropriation of funds in PS funds with a budgetary control of 3 must be approved by the legislature, or authorized by legislation; the allotment must be approved by the state budget director, or authorized by legislation. The unexpended appropriation of a control 3 PS fund reverts to the surplus balance of the fund at the end of the fiscal year.

The appropriation of funds in PS funds with a budgetary control of 4 must be approved by the legislature, or authorized by legislation; the allotment must be approved by the state budget director, or authorized by legislation. The unexpended appropriation of funds that have not been allotted for a control 4 PS fund reverts to the surplus balance of the fund at the end of the fiscal year.

The appropriation of funds in PS funds with a budgetary control of 5 increases when revenue is received as authorized by legislation, or controlled by the functionality of the PS fund; the allotment must be approved by the state budget director, or authorized by legislation. The unexpended appropriation of a control 5 PS fund does not revert to the surplus balance of the fund at the end of the fiscal year. The appropriation balance in the PS fund continues into the next fiscal year.

The appropriation and allotment of funds in PS funds with a budgetary control of 6 increases when revenue is received as authorized by legislation, or controlled by the functionality of the PS fund. The unexpended allotment of a control 6 PS fund does not revert to the surplus balance of the fund at the end of the fiscal year. The allotment balance in the PS fund continues into the next fiscal year.

PS funds with a budgetary control of 7 have no budgetary impact as authorized by legislation, or controlled by the functionality of the PS fund. The unexpended funds of a control 7 PS fund do not revert to the surplus balance of the fund at the end of the fiscal year. The unexpended balance in the PS fund continues into the next fiscal year.

**Business Unit**

A business unit is an agency of state government and is indicated by number in this report. On the following page is a list of business units in numerical order. The business unit associated with a PS fund is indicated by the BU number in the BU columns of the Schedule of Revenue and Schedule of Expenditures.
