Directors Report:

Asst. Director Greg explained 4 medic students all graduated and a field training program has been established. They are anticipating this to be a 4-6 week program. They have been continuing with shift training every 2 weeks with LFD. The Mock Prom was a success at Pioneer Jr/High. Third quarter project that is to work on southern part of county response area, working on the 5-8 year plan on housing and continuing to build a simulation lab. CCEMS has been participating in several PR events (See Report attached).

Mike Deitrich asked for update on status of ambulances. One truck from Carroll County is on 3rd week of repairs with a motor mount broken this part is in transit at this time. Currently 3 units are operational and the one rental unit is in storage but available for use. The new truck is scheduled for delivery in January.

Mike Deitrich also stated that he would like to get some clarifications on the collections data so he could answer questions in more detail.

Mike also provided some information on the southern county response. Currently St Joseph is stating that they only want to continue responding to the southern part of the county if they are being requested by Galveston Fire and not an automatic aid response.
