Independent Auditor's Report

Board of Directors
Reid Hospital and Health Care Services, Inc.
Richmond, Indiana

We have audited the accompanying consolidated financial statements of Reid Hospital and Health Care Services, Inc., which comprise the consolidated balance sheets as of December 31, 2016 and 2015, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Reid Hospital and Health Care Services, Inc. as of December 31, 2016 and 2015, and the results of its operations, the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Information

Our audits were performed for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying consolidating information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the consolidated financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Principles of Consolidation

Reid Hospital and Health Care Services, Inc. (Hospital), located in Richmond, Indiana, is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. The Hospital provides short-term acute inpatient, outpatient and emergency care to residents of Wayne county and surrounding counties. Admitting physicians are primarily practitioners in the local area.

As of December 31, 2015, the Hospital owned 65% of Reid MOB, LLC (Reid MOB). During 2016, the Hospital acquired the remaining shares from noncontrolling interests and owns 100% of Reid MOB as of December 31, 2016. The purpose of Reid MOB is to own, operate and serve as landlord for a medical office building and outpatient care center located on the campus of Reid Hospital and Health Care Services, Inc.

The Hospital owns 55% and holds a controlling interest in an ambulatory surgery center, Reid Outpatient Surgery and Endoscopy, LLC (ROSE).

The Hospital owns 100% of Reid Physician Associates, Inc. (RHPA) and Reid Anesthesia, LLC (RA, LLC), which are not-for-profit corporations as described in Section 501(c)(3) of the Code. As such, RHPA and RA, LLC are exempt from income taxes on related income pursuant to Section 501(a) of the Code. RHPA provides physician services and RA, LLC provides anesthesia and management services.

During 2016, the Hospital formed Connerville Pharmacy, LLC (CPH) and holds 100% ownership. CPH was created to own and operate a retail pharmacy in the Hospital's service area and surrounding communities.

The Hospital holds a 50% equity ownership interest in Reid-ANC Home Care Services, LLC, which is accounted for under the equity method.

The consolidated financial statements include the accounts of the Hospital and its controlled subsidiaries, Reid MOB, ROSE, RHPA, RA, LLC and CPH. All material intercompany accounts and transactions have been eliminated in consolidation. Investments in organizations in which the Hospital's ownership percentage is 50% or less are accounted for under the equity method and are included with other assets on the consolidated balance sheets.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Noncontrolling Interest

Noncontrolling interest represents a 45% interest in ROSE at December 31, 2016 and 2015 and a 35% interest in Reid MOB at December 31, 2015. During 2016, the Hospital acquired the remaining shares of Reid MOB from noncontrolling interests.

	Total	Controlling Interest	Noncontrolling Interest
Balance, January 1, 2015	\$ 378,785,848	\$ 376,559,219	\$ 2,226,629

The change in temporarily restricted and permanently restricted net assets related only to the controlling interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements

December 31, 2016 and 2015

Cash and Cash Equivalents

The Hospital considers all liquid investments with original maturities of three months or less to be cash equivalents. At December 31, 2016 and 2015, cash equivalents consisted primarily of money market accounts with brokers and certificates of deposit.

At December 31, 2016, the Hospital's cash accounts exceeded federally insured limits by approximately \$31,100,000.

Investments and Investment Return

Investments in equity securities having a readily determinable fair value and all debt securities are carried at fair value. Certain alternative investments are reported on the equity method of accounting. Other investments include investments in limited partnerships valued on the income tax basis of accounting, which approximates the equity method of accounting, and investments in limited partnerships carried at fair value. Investment return includes dividend, interest and other investment income; realized and unrealized gains and losses on investments carried at fair value; and realized gains and losses on other investments. Investment return that is initially restricted by donor stipulation and for which the restriction will be satisfied in the same year is included in unrestricted net assets. Other investment return is reflected in the consolidated statements of operations and changes in net assets as unrestricted, temporarily restricted or permanently restricted based upon the existence and nature of any donor or legally imposed restrictions.

Assets Limited as to Use

Assets limited as to use include assets set aside by the Board of Directors for future capital improvements over which the Board retains control and may, at its discretion, subsequently use for other purposes.

Patient Accounts Receivable

Accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of accounts receivable, the Hospital analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payer sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payer has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely).

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or provided by policy) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

Supplies

The Hospital states supply inventories at the lower of cost, determined using the first-in, first-out (FIFO) method, or market.

Property and Equipment

Property and equipment acquisitions are recorded at cost and are depreciated on a straight-line basis over the estimated useful life of each asset. Assets under capital lease are depreciated over the shorter of the asset life or lease term.

Donations of property and equipment are reported at fair value as an increase in unrestricted net assets unless use of the assets is restricted by the donor. Monetary gifts that must be used to acquire property and equipment are reported as restricted support. The expiration of such restrictions is reported as an increase in unrestricted net assets when the donated asset is placed in service.

The Hospital capitalizes interest costs as a component of construction in progress, based on the weighted-average rates paid for long-term borrowing. No interest amounts were capitalized in 2016 or 2015.

The estimated useful lives for each major depreciable classification of property and equipment are as follows:

Land improvements	5 - 25 years
Buildings and improvements	5 - 40 years
Building and moveable equipment	2 - 20 years

Long-Lived Asset Impairment

The Hospital evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimated future cash flows expected to result from the use and eventual disposition of the asset are less than the carrying amount of the asset, the asset cost is adjusted to fair value, and an impairment loss is recognized as the amount by which the carrying amount of a long-lived asset exceeds its fair value.

No asset impairment was recognized during the years ended December 31, 2016 and 2015.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Interest in Net Assets of Reid Hospital and Health Care Services Foundation, Inc.

Reid Hospital and Health Care Services Foundation, Inc. (Foundation) and the Hospital are financially interrelated organizations. The Foundation seeks private support for, and holds net assets on behalf of, the Hospital. The Hospital accounts for its interest in the net assets of the Foundation (Interest) in a manner similar to the equity method. Changes in the Interest are included in change in net assets. Transfers of assets between the Foundation and the Hospital are recognized as increases or decreases in the Interest.

Deferred Financing Costs

Deferred financing costs represent costs incurred in connection with the issuance of long-term debt. Such costs are presented as a reduction from long-term debt and are being amortized over the term of the respective debt using the straight-line method.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity.

Net Patient Service Revenue

The Hospital has agreements with third-party payers which provide for payments to the Hospital at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such estimated amounts are revised in future periods as adjustments become known.

Charity Care

The Hospital provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue. Charges excluded from revenue under the Hospital's charity care policy were \$27,037,738 and \$30,996,073 for 2016 and 2015, respectively. Total cost for these charges based on the Hospital's overall cost-to-charge ratio was approximately \$7,963,028 and \$9,682,166 for 2016 and 2015, respectively.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

The Hospital also provides unreimbursed services to the community, which include free or low cost health screenings, educational programs and information and financial support to, and meeting space for, various community groups. In addition, services to beneficiaries of governmental programs (principally those relating to the Medicare and Medicaid programs) are generally provided at governmentally established rates, which are substantially lower than the Hospital's standard rates and are considered part of the Hospital's benefits to the community. Assistance is also provided to senior citizens and other patients and their families for the submission of forms for insurance, financial counseling and the application to the Medicare and Medicaid programs for health service coverage. The costs of these programs are included in operating expenses.

Professional Liability Claims

The Hospital recognizes an accrual for claim liabilities based on estimated ultimate losses and costs associated with settling claims and a receivable to reflect the estimated insurance recoveries, if any. Professional liability claims are described more fully later in these notes.

Excess of Revenues Over Expenses

The consolidated statements of operations include excess of revenues over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues over expenses, consistent with industry practice, include net benefit (loss) arising during the period related to defined-benefit plans, distributions to noncontrolling interests and other.

Self-Insurance

The Hospital has elected to self-insure certain costs related to employee health and accident benefit programs. Costs resulting from noninsured losses are charged to expense when incurred. The Hospital has purchased insurance that limits its exposure for individual claims and that limits its aggregate exposure to \$275,000.

Income Taxes

The Hospital and RHPA have been recognized as exempt from income taxes under Section 501 of the Internal Revenue Code and a similar provision of state law. However, the Hospital is subject to federal income tax on any unrelated business taxable income. ROSE, Reid MOB and CPH are not directly subject to income taxes under the provisions of the Internal Revenue Code and applicable state laws. Taxable income or loss is allocated to its members in accordance with their respective percentage ownership for inclusion in their respective tax returns.

The Hospital and its controlled subsidiaries file tax returns in the U.S. federal jurisdiction. With a few exceptions, the Hospital and its controlled subsidiaries are no longer subject to U.S. federal examination by tax authorities for years before 2013.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements

December 31, 2016 and 2015

Electronic Health Records Incentive Program

The Electronic Health Records Incentive Program, enacted as part of the *American Recovery and Reinvestment Act of 2009*, provides for one-time incentive payments under both the Medicare and Medicaid programs to eligible hospitals that demonstrate meaningful use of certified electronic health records technology (EHR). Payments under the Medicare program are generally made for up to four years based on a statutory formula. Payments under the Medicaid program are generally made for up to four years based upon a statutory formula, as determined by the state, which is approved by the Centers for Medicare and Medicaid Services. Payment under both programs are contingent on the Hospital continuing to meet escalating meaningful use criteria and any other specific requirements that are applicable for the reporting period. The final amount for any payment year is determined based upon an audit by the fiscal intermediary. Events could occur that would cause the final amounts to differ materially from the initial payments under the program.

The Hospital recognizes revenue ratably over the reporting period starting at the point when management is reasonably assured it will meet all of the meaningful use objectives and any other specific grant requirements applicable for the reporting period.

The Hospital met the first-year requirements under the Medicare program in 2013 and the Medicaid program in 2012. After continuing to meet additional requirements, the Hospital recorded revenue of approximately \$620,000 and \$1,267,000 under the Medicare program in 2016 and 2015, respectively.

RHPA physicians have completed requirements under the Medicare program at various dates. RHPA recorded revenue of approximately \$442,000 and \$407,000 in 2016 and 2015, respectively, which is also included in other operating revenue within the consolidated statements of operations.

Intangible Assets

Intangible assets with finite lives represent software licensing agreements. Amounts are amortized on the straight-line basis over the lease term, which is a period of ten years. Such assets are periodically evaluated as to the recoverability of their carrying values.

Reclassifications

Certain reclassifications have been made to the 2015 consolidated financial statements for the adoption of ASU 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*, that were deemed to be immaterial. Other reclassifications have been made to the 2015 financial statements to conform to the 2016 financial statement presentation. These reclassifications had no effect on the change in net assets.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Note 2: Net Patient Service Revenue

The Hospital recognizes patient service revenue associated with services provided to patients who have third-party payer coverage on the basis of contractual rates for the services rendered. For uninsured patients who do not qualify for charity care, the Hospital recognizes revenue on the basis of its standard rates for services provided. On the basis of historical experience, a significant portion of the Hospital's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Hospital records a significant provision for bad debts related to uninsured patients in the period the services are provided. This provision for bad debts is presented on the consolidated statements of operations as a component of net patient service revenue.

The Hospital has agreements with third-party payers that provide for payments to the Hospital at amounts different from its established rates. These payment arrangements include:

Medicare. Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. The Hospital is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. The Hospital is a Medicare Designated Sole Community Hospital. Special Medicare payments under this designation approximated \$15.6 million and \$13.4 million for the years ended December 31, 2016 and 2015.

Management evaluates program compliance and records a reserve pertaining to certain inpatient and outpatient services that are probable of repayment to the Medicare program.

Medicaid. Inpatient acute care services and substantially all outpatient services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

In January 2017, the Hospital received notice that its Medicaid Inpatient Utilization Rate (MIUR) exceeded state-wide thresholds, as defined by state regulation, and qualified as a Medicaid Disproportionate Share Hospital (DSH) provider under Indiana law for State Fiscal Years 2016 and 2017. With this approval, the Hospital is eligible to receive supplemental Medicaid payments for the period July 1, 2015 through June 30, 2017. The amounts of these supplemental payments are dependent on regulatory approval by agencies of the federal and state governments and is determined by level, extent and cost of uncompensated care and various other factors. Supplemental payments have not been made to the Hospital by the State of Indiana. The Hospital records such amounts as revenue when it has been reasonably determined that the funds will be received. During 2016, the Hospital recognized approximately \$1.7 million within net patient service revenue related to this supplemental payment program which is accrued as a receivable in other current assets at December 31, 2016. These amounts represent funds due to the Hospital retroactive to June 1, 2015 and are management's best estimate of DSH funds due to the Hospital, which are typically paid in arrears.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

The Hospital participates in a state-specific provider assessment program to increase Medicaid payments to hospitals. The Hospital incurred approximately \$6.4 million and \$9.2 million of fees related to the program in 2016 and 2015, respectively, which is recorded as an operating expense. A benefit of having the Hospital's MIUR over state-wide thresholds includes paying 75% of the provider assessment fee, where nonqualified hospitals must pay 100% of the provider assessment fee. During 2016, the Hospital reduced its recorded expense by approximately \$3.5 million which represents the 25% benefit retroactive to July 1, 2015. The provider assessment fee program is subject to further retroactive rate setting by the state of Indiana and its Medicaid program and the amounts expensed represent the current fees that have been assessed to the Hospital, including the 25% benefit. The program is scheduled to sunset on June 30, 2017. There is no assurance this program will continue to be implemented in the future.

The results of the state's MIUR measurement are subject to appeal by all providers. It is possible that another provider's appeal could result in a change in the Hospital's eligibility status as the MIUR threshold is adjusted. Additionally, the state measures MIUR percentages no less than every two years and no more than every four years. At each measurement period, the state-defined MIUR threshold changes, which could affect the Hospital's eligibility status. Any change in eligibility status would affect the Hospital's ability to qualify for Medicaid DSH payments and receive the 25% provider assessment fee reduction. Any changes in the amount of tax due or expected proceeds from the DSH program as a result of eligibility changes will be recorded in the period once the state has made its determination.

The Hospital also receives payment from other third-party payers such as commercial insurance carriers, health maintenance organizations and preferred organizations. Payments are based on Hospital-established charges and prospectively determined daily rates.

The mix of net patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), recognized in the years ended December 31, 2016 and 2015 is:

	2016	2015
Medicare	\$ 172,080,881	\$ 164,389,170
Medicaid	47,805,414	36,446,671
Other third-party payers	184,402,440	187,736,610
Uninsured patients, including coinsurance and deductibles	16,052,246	10,857,021
	<u>\$ 420,340,981</u>	<u>\$ 399,429,472</u>

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Note 3: Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are area residents and are insured under third-party payer agreements. The mix of net receivables from patients and third-party payers at December 31, 2016 and 2015 is:

	2016	2015
Medicare	35%	38%
Medicaid	10%	11%
Other third-party payers	48%	38%
Uninsured patients, including coinsurance and deductibles	7%	13%
	100%	100%

Note 4: Investments and Investment Return

Assets Limited as to Use

Assets limited as to use at December 31 are as follows:

	2016	2015
Internally designated by Board		
Trading		
Cash and cash equivalents	\$ 37,277,461	\$ 8,222,784
Domestic equity securities	5,687,578	9,344,977
Non-U.S. equity securities	173,625	1,134,744
Domestic equity mutual funds	128,421,522	118,774,946
Domestic fixed income mutual funds	52,357,433	51,447,577
Non-U.S. equity mutual funds	5,539,352	4,202,156
Other	252,768	-
Other than trading		
Alternative investments - private equity	3,880,144	2,126,107
Alternative investments - corporate hedge funds	19,909,637	34,754,809
Alternative investments - real estate hedge funds	27,601,461	2,485,387
	\$ 281,100,981	\$ 232,493,487

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Total investment return is comprised of the following:

	2016	2015
Interest and dividend income (net of interest paid on derivative investment instrument)	\$ 2,877,852	\$ 2,801,930
Realized gains on trading securities	2,679,418	5,923,647
Unrealized gains (losses) on trading securities	9,834,429	(11,351,819)
Realized and unrealized losses on other investments carried at fair value	(91,226)	(1,052,575)
Investment gains (losses) on investments carried under equity method	284,353	(467,707)
	\$ 15,584,826	\$ (4,146,524)

The Hospital classifies substantially all of its investments in debt and equity securities as trading. This classification requires the Hospital to recognize unrealized gains and losses on substantially all of its investments in debt and equity securities as nonoperating gains in the consolidated statements of operations.

Alternative Investments Carried at Fair Value

The fair value of alternative investments has been estimated using the net asset value per share of the investments. Alternative investments held at December 31 consist of the following:

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Private equity	\$ 3,880,144	\$ 1,371,978	N/A	N/A
Corporate hedge funds	19,909,637	561,264	Quarterly - Yearly	95 days
Real estate hedge funds	25,313,819	-	Quarterly - Yearly	45-90 days
	December 31, 2015			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Private equity	\$ 2,126,107	\$ 2,166,468	N/A	N/A
Corporate hedge funds	34,754,809	623,936	Quarterly - Yearly	95 days

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Alternative Investments Carried Under Equity Method

The five alternative investments reported on the equity method consist of various real estate funds. These funds invest in other limited partnerships in equity and real estate sectors. All funds are locked-up for the life of the investment with no option for redemption. Outstanding commitments for these funds approximate \$300,000. The financial position and results of operations of the more significant investment positions of which the Hospital owns a portion of, are summarized below on a combined basis for the most recent period in which audited consolidated financial statements are available.

Current assets	\$	4,708,834
Noncurrent assets		40,069,919
		\$ 44,778,753
Liabilities	\$	73,293
Equity	\$	44,705,460
Investment return	\$	4,491,461
Net income	\$	4,363,736

Note 5: Interest in Net Assets of Reid Hospital and Health Services Foundation, Inc.

The Foundation was organized to support the activities of the Hospital in Richmond, Indiana. Funds are distributed to the Hospital as determined by the Foundation's Board of Directors. The Hospital's interest in the net assets of the Foundation is accounted for in a manner similar to the equity method. Changes in interest are included in change in net assets. Transfers of assets between the Foundation and the Hospital are recognized as increases or decreases in the interest in the net assets of the Foundation, with corresponding decreases or increases in the assets transferred, and have no effect on change in net assets. The Hospital's interest in the net assets of the Foundation is reported in the consolidated balance sheets and was \$23,380,561 and \$28,430,858 at December 31, 2016 and 2015, respectively. During 2016, the Foundation made an unrestricted donation to the Hospital of \$7,500,000, which is included in net assets released from restrictions used for operations.

Certain Hospital officers and board members also serve on the Foundation's board of directors.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Note 6: Medical Malpractice Claims

The Hospital is a qualified health care provider under the Indiana Medical Malpractice Act and is fully insured under a claims-made policy on a fixed premium basis. The Indiana Medical Malpractice Act limits a qualified provider's liability for an occurrence to the amount of required insurance. The Indiana patient compensation fund is liable for the excess up to an overall damage cap. The Hospital is a subscriber in a Vermont captive insurance company, Indiana Healthcare (previously named VHA Central), a reciprocal risk retention group. The Hospital's capital contribution is reported in other assets.

Reserves for professional liability claims were \$525,371 and \$741,071 at December 31, 2016 and 2015, respectively, and are included in accounts payable and accrued expenses in the accompanying consolidated balance sheets. Although considerable variability is inherent in professional liability reserve estimates, management believes the reserves for losses and loss expenses are adequate based on information currently known. It is reasonably possible that this estimate could change materially in the near term.

The Hospital's professional liability risks, in excess of certain per claim amounts, are insured through the policies described above. The amount receivable under these insurance contracts was \$525,371 and \$741,071 included in prepaid expenses and other at December 31, 2016 and 2015, respectively.

Note 7: Long-Term Debt

	<u>2016</u>	<u>2015</u>
Hospital Revenue Bonds, Series 2012	\$ -	\$ 74,235,000

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements

December 31, 2016 and 2015

The Hospital Authority of Richmond (Authority) obligated itself in a trust indenture with U.S. Bank National Association. The Authority loaned the proceeds of the bond issues in various loan agreements, which are more fully described below. The current obligations are secured by the Hospital's revenues and substantially all of the Hospital's assets.

In connection with the bond issues, the Hospital entered into various agreements benefiting the respective bond stakeholders. These agreements require the Hospital to meet certain financial performance ratios among other covenants. Management believes they are in compliance with all covenants.

Hospital Revenue Bonds Series 2012

The Authority issued Revenue Bonds Series 2012 pursuant to a Trust Indenture dated as of December 1, 2012 between the Authority and U.S. Bank National Association, as Trustee. The bonds were special and limited obligations of the Authority and were payable solely from, and secured exclusively by, payments, revenues and other amounts pledged under the Trust Indenture, including payments to be made by the Hospital under a loan agreement dated December 1, 2012, between the Authority and the Hospital.

Proceeds from the bond issue were primarily to refund the Series 2005A bonds. The 2012 bonds were refunded with the issuance of the 2016A and 2016B bonds described below. The Hospital recognized a \$373,000 loss on this bond refunding.

Hospital Revenue Bonds Series 2015A

The Authority issued Revenue Bonds Series 2015A pursuant to a Trust Indenture dated as of February 24, 2015 between the Authority and U.S. Bank National Association, as Trustee. The bonds are special and limited obligations of the Authority and are payable solely from, and secured exclusively by, payments, revenues and other amounts pledged under the Trust Indenture, including payments to be made by the Hospital under a loan agreement dated February 1, 2015, between the Authority and the Hospital.

Proceeds from the bond issue were primarily to refund the Series 2009A bonds.

The fixed rate serial bonds require annual principal payments on January 1 of each year beginning in 2016 in amounts ranging from \$1,790,000 to \$6,895,000 and are due in full in January 2039. Interest payments are due on January 1 and July 1, and rates vary from 2.0% to 5.0% at final maturity.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Hospital Revenue Bonds Series 2016A and 2016B

The Authority issued Revenue Bonds Series 2016A and 2016B pursuant to a Trust Indenture dated as of November 1, 2016 between the Authority and U.S. Bank National Association, as Trustee. The bonds are special and limited obligations of the Authority and are payable solely from, and secured exclusively by, payments, revenues and other amounts pledged under the Trust Indenture, including payments to be made by the Hospital under a loan agreement dated November 1, 2016, between the Authority and the Hospital.

Proceeds from the bond issue were primarily to refund the Series 2012 bonds.

The 2016A fixed rate serial bonds require annual principal payments on January 1 of each year beginning in 2017 in amounts ranging from \$1,445,000 to \$2,224,000 and are due in full in January 2036. The bonds may be subject to mandatory tender for purchase by the Hospital at the end of the direct purchase conversion period which is January 1, 2027. Interest payments are due on January 1 and July 1 at a fixed rate of 2.94% through January 1, 2027 at which time the interest rate is subject to adjustment.

The 2016B fixed rate serial bonds require annual principal payments on January 1 of each year beginning in 2028 in amounts ranging from \$40,000 to \$7,390,000 and are due in full in January 2036. Interest payments are due on January 1 and July 1 at a fixed rate of 5.00%.

Series 2016 Term Loan

The Hospital entered into a bank term loan dated October 24, 2016 requiring annual principal payments on January 1 of each year beginning in 2017 in amounts ranging from \$2,075,000 to \$5,700,000 and are due in full in January 2031. Interest payments are due monthly at a LIBOR-based variable rate plus an applicable margin (ranging from 1.767% to 2.167%). The interest rate at December 31, 2017 was 2.40%. The loan is secured exclusively by payments, revenues and other amounts pledged under the Trust Indenture.

Capital Lease Payable

The Hospital has entered into capital lease obligations for equipment at various dates in 2015 and 2016. The leases have varying rates of imputed interest approximating 2.5% due through 2020 and are collateralized by the equipment. Property and equipment include moveable equipment under capital lease totaling \$3,172,349 and \$2,547,937, net of accumulated depreciation of \$552,059 and \$184,000 at December 31, 2016 and 2015, respectively.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Annual Maturities

The bonds listed above are subject to mandatory sinking fund requirements. Aggregate annual maturities and sinking fund requirements of bonds and capital lease payable at December 31, 2016, are:

	Long-Term Debt (Excluding Capital Lease Obligations	Capital Lease Obligations
2017	\$ 5,882,000	\$ 697,815
2018	6,067,000	697,815
2019	6,259,000	697,815
2020	6,477,000	415,372
2021	6,701,000	-
Thereafter	178,354,000	-
	\$ 209,740,000	2,508,817
Less amount representing interest		109,248
Present value of future minimum lease payments		2,399,569
Less current maturities		646,503
Noncurrent portion		\$ 1,753,066

Interest expense for the years ended December 31, 2016 and 2015 was \$6,030,613 and \$6,037,860, respectively.

Note 8: Interest Rate Swap Agreements

Cash Flow Hedge

In March 2005, the Hospital entered into two interest rate swap agreements (the 2005 Swaps) for notional amounts totaling \$87,500,000. The 2005 Swaps are fixed rate payer swaps that terminate in January 2045 and prior to April 1, 2008, amortized in coordination with the 2005 B and C Series Bonds. Under this agreement, the Hospital pays a fixed rate of 3.702% and receives a floating rate equal to 63.10% of USD-LIBOR + .25% (.70% and .52% at December 31, 2016 and 2015, respectively). The original objective of the 2005 Swaps was to hedge the risk of overall changes in the variable interest payments on the 2005 Series B and C Bonds. The fair value of the 2005 Swaps represents a payable to the counterparty and is recorded as a liability of \$18,778,571 and \$20,512,945 at December 31, 2016 and 2015, respectively.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Beginning on April 1, 2009, the 2005 Swaps were re-designated to hedge the 2005A Series Bonds. The hedge qualified as an effective hedge through December 17, 2012, the date the 2005A Series Bonds were refunded, and all changes in the 2005 Swaps subsequent to the accounting election date through the date of refinance were reported in other changes in unrestricted net assets. Beginning December 17, 2012, the 2005 Swaps no longer qualified as an effective hedge due to the refinancing of the 2005A Series Bonds with a fixed rate instrument, the 2012A Bonds described herein. At this time, the Hospital incurred a one-time charge totaling \$10,280,355, which represented the fair value of the Swaps at the refinancing date, less amounts already recognized in earnings during periods of ineffectiveness and the remaining unamortized loss, which was being amortized over the life of the 2005A Series Bonds. Changes in fair value of the 2005 Swaps since this date have been recorded in other income (expense).

The table below presents certain information regarding the Hospital's interest rate swap agreements at December 31:

	2016	2015
Fair value of interest rate swap agreements	\$ (18,778,571)	\$ (20,512,945)
Balance sheet location of fair value amount	Interest Rate Swap Agreement Liability	Interest Rate Swap Agreement Liability
Location of change in fair value reclassified from unrestricted net assets into excess (deficiency) of revenues over expenses	N/A	N/A
Change in fair value recognized in excess (deficiency) of revenues over expenses (ineffective portion)	\$ 1,734,374	\$ (258,427)
Location of change in fair value recognized in excess (deficiency) of revenues over expenses (ineffective portion)	Other Income (Expense) - Change in fair value of interest rate swap agreements	Other Income (Expense) - Change in fair value of interest rate swap agreements

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Note 9: Property and Equipment

Property and equipment and related accumulated depreciation as of December 31 are as follows:

	2016	2015
Land and land improvements	\$ 49,129,150	\$ 48,733,725
Buildings and improvements	139,134,554	138,015,703
Building equipment	178,427,408	176,832,761
Moveable equipment	177,840,016	166,035,445
Construction in progress	9,223,790	7,202,145
	<u>553,754,918</u>	<u>536,819,779</u>
Accumulated depreciation	<u>(291,213,713)</u>	<u>(263,942,626)</u>
	<u>\$ 262,541,205</u>	<u>\$ 272,877,153</u>

Note 10: Acquired Intangible Assets

In July 2016, the Hospital entered into a license agreement for the implementation of a new information system and electronic medical record platform. Total contracted implementation fees approximated \$17.4 million. Through December 31, 2016, approximately \$4.1 million has been paid under this agreement. These amounts are recorded as an intangible asset and will be amortized straight-line over the term of the agreement when placed in service. The carrying basis and accumulated amortization of the recognized intangible asset at December 31, 2016 were:

	2016		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Value
Amortized intangible assets			
Licensing agreements	\$ 4,089,110	\$ -	\$ 4,089,110
	<u>\$ 4,089,110</u>	<u>\$ -</u>	<u>\$ 4,089,110</u>

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Note 11: Temporarily and Permanently Restricted Net Assets

Temporarily and permanently restricted net assets are restricted for the interest in net assets of the Foundation. Temporarily restricted net assets totaled \$23,214,768 and \$28,265,065 at December 31, 2016 and 2015, respectively. Permanently restricted net assets totaled \$165,793 at December 31, 2016 and 2015.

Net assets of \$8,043,589 and \$744,170 were released for use in operations for 2016 and 2015, respectively.

Note 12: Functional Expenses

The Hospital provides health care services primarily to residents within its geographic area. Expenses related to providing these services are as follows:

	<u>2016</u>	<u>2015</u>
Health care services	\$ 368,030,312	\$ 354,048,054
General and administrative	<u>34,012,852</u>	<u>37,294,992</u>
	<u>\$ 402,043,164</u>	<u>\$ 391,343,046</u>

Note 13: Pension Plans

Defined-Contribution Plan

Effective April 1, 2008, the Hospital implemented a defined-contribution pension plan covering substantially all employees hired after April 1, 2008. Employees hired prior to April 1, 2008 who met the eligibility requirements participate in the defined-benefit plan. Substantially all employees are eligible to participate in the Hospital's 403b plan. The Board of Directors annually determines the amount, if any, of the Hospital's contributions to the plan. Pension expense was \$4,265,290 and \$3,829,386 for 2016 and 2015, respectively.

Defined-Benefit Plan

The Hospital had a noncontributory defined-benefit pension plan covering all employees who meet the eligibility requirements. The Hospital terminated the plan in 2016 and all distributions to plan participants have been made at December 31, 2016 through the purchase of nonparticipating annuity contracts or direct lump sum payouts. The Hospital's funding policy was to make the minimum annual contribution that is required by applicable regulations, plus such amounts as the Hospital may determine to be appropriate from time to time.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

The Hospital uses a December 31 measurement date for the plan. Information about the plan's funded status follows:

	2016	2015
Changes in projected benefit obligation		
Beginning balance	\$ 55,478,664	\$ 62,523,484
Interest cost	2,410,035	2,411,909
Benefits paid	(57,354,354)	(5,048,853)
Actuarial gain	(534,345)	(4,657,816)
Effect of settlement/curtailment	-	249,940
Ending balance	-	55,478,664
Changes in fair value of assets		
Fair value at beginning of year	32,220,446	36,997,534
Actual return on plan assets	2,571,582	(1,028,235)
Employer contributions	22,562,326	1,300,000
Benefits paid	(57,354,354)	(5,048,853)
Ending balance	-	32,220,446
Funded status	\$ -	\$ (23,258,218)

Liabilities recognized in the consolidated balance sheets:

	2016	2015
Noncurrent liabilities	\$ -	\$ (23,258,218)

Amounts recognized in unrestricted net assets not yet recognized as components of net periodic benefit cost consist of:

	2016	2015
Net loss	\$ -	\$ 24,979,615

The accumulated benefit obligation for the defined-benefit pension plan was \$0 and \$55,478,664 at December 31, 2016 and 2015, respectively.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Information for the pension plan which has an accumulated benefit obligation in excess of plan assets follows:

	2016	2015
Projected benefit obligation	N/A	\$ 55,478,664
Accumulated benefit obligation	N/A	55,478,664
Fair value of plan assets	N/A	32,220,446

The following table shows the components of net periodic benefit costs:

	2016	2015
Interest cost	\$ 2,410,035	\$ 2,411,909
Expected return on assets	(1,907,886)	(2,390,971)
Recognition of net loss	1,619,312	1,986,610
Net period benefit cost	<u>2,121,461</u>	<u>2,007,548</u>
Settlement cost	<u>22,162,262</u>	<u>2,136,771</u>
Net benefit cost	<u>\$ 24,283,723</u>	<u>\$ 4,144,319</u>

Other changes in plan assets and benefit obligations recognized in other changes in unrestricted net assets at December 31, 2016 and 2015:

	2016	2015
Loss recognized in current year	\$ (23,781,574)	\$ (4,123,381)
Gain incurred in current year	<u>1,198,041</u>	<u>988,670</u>
Other changes in net assets in current year	<u>\$ (24,979,615)</u>	<u>\$ (5,112,051)</u>

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Significant assumptions include:

	Pension Benefits	
	2016	2015
Weighted-average assumptions used to determine benefit obligations:		
Discount rate	N/A	4.50%
Rate of compensation increase	N/A	0.00%
Weighted-average assumptions used to determine benefit costs:		
Discount rate	N/A	4.00%
Expected return on plan assets	N/A	6.75%
Rate of compensation increase	N/A	0.00%

The Hospital had estimated the long-term rate of return on plan assets based primarily on historical returns on plan assets, adjusted for changes in target portfolio allocations and changes in long-term interest rates based on publicly available information.

Plan assets were held by a bank-administered trust fund, which invested the plan assets in accordance with the provisions of the plan agreement. The plan agreement permitted investment in common stocks, corporate bonds and debentures, U.S. Government securities, certain insurance contracts, real estate and other specified investments, based on certain target allocation percentages.

Asset allocation was primarily based on a strategy to provide stable earnings while still permitting the plan to recognize potentially higher returns through a limited investment in equity securities. The target asset allocation percentages for 2016 and 2015 are as follows:

	2016	2015
Equity securities	N/A	15 - 35%
Debt securities	N/A	45 - 65%
Other	N/A	0 - 40%

Plan assets were re-balanced quarterly. At December 31, 2016 and 2015, plan assets by category are as follows:

	2016	2015
Equity securities	N/A	32%
Debt securities	N/A	54%
Other	N/A	14%

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Pension Plan Assets

Following is a description of the valuation methodologies used for pension plan assets measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of pension plan assets pursuant to the valuation hierarchy.

Where quoted market prices are available in an active market, plan assets are classified within Level 1 of the valuation hierarchy. Level 1 plan assets include money market funds, equity securities and debt securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of plan assets with similar characteristics or discounted cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, plan assets are classified within Level 3 of the hierarchy. The Plan does not have any Level 2 or Level 3 assets at December 31, 2016 or 2015.

All distributions were made from the plan which held no assets as of December 31, 2016. The fair values of the Hospital's pension plan assets at December 31, 2015, by asset class, were as follows:

	2015				
	Fair Value Measurements Using				
Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Investments Measured at NAV ^(A)	
Money market funds	\$ 578,425	\$ 578,425	\$ -	\$ -	\$ -
Domestic equity mutual funds	9,141,795	9,141,795	-	-	-
Non-U.S. equity mutual funds	1,970,352	1,970,352	-	-	-
Domestic fixed income mutual funds	20,177,069	20,177,069	-	-	-
Alternative investments - hedge funds measured at net asset value	352,805	-	-	-	352,805
	<u>\$ 32,220,446</u>	<u>\$ 31,867,641</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 352,805</u>

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheet.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Note 14: Disclosures About Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying consolidated balance sheets measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31 2016 and 2015:

	Total	2016 Fair Value Measurements Using

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated balance sheets.

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2016.

Money Market Funds

Where quoted market prices are available in an active market, money market mutual funds are classified within Level 1 of the valuation hierarchy.

Reid Hospital and Health Care Services, Inc.
Notes to Consolidated Financial Statements
December 31, 2016 and 2015

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include equity securities, equity mutual funds and fixed income mutual funds.

Interest Rate Swap Agreement

The fair value is estimated using forward-looking interest rate curves and discounted cash flows that are observable or that can be corroborated by observable market data and, therefore, are classified within Level 2 of the valuation hierarchy.

Fair Value of Financial Instruments

The following table presents estimated fair values of the Hospital's financial instruments and the level within the fair value hierarchy in which the fair value measurements fall at December 31 2016 and 2015:

	Carrying Amount	2016 Fair Value Measurements Using				Investments Measured at NAV ^(A)
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(A) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

The following methods were used to estimate the fair value of all other financial instruments recognized in the accompanying consolidated balance sheets at amounts other than fair value.

Cash and Cash Equivalents

The carrying amount approximates fair value.

Interest in Net Assets of Reid Hospital and Health Care Services Foundation, Inc.

Fair value is estimated at the present value of the future distributions expected to be received over the term of the agreement.

Long-Term Debt

Fair value is estimated based on the borrowing rates currently available to the Hospital for bank loans with similar terms and maturities.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements December 31, 2016 and 2015

Note 15: The Fair Value Option

The Hospital has elected to measure certain alternative investments at fair value because it more accurately reflects its financial position. Included in the accompanying consolidated balance sheets are twelve alternative investments of which seven are reported at fair value of \$49,103,600 at December 31, 2016 and ten alternative investments of which five are reported at fair value of \$36,880,916 at December 31, 2015; the other funds are reported on the equity method at \$2,287,642 and \$2,485,387 at December 31, 2016 and 2015, respectively. Unrealized and realized losses on investments elected to be measured at fair value were \$91,226 and \$1,052,575 at December 31, 2016 and 2015, respectively. These gains and losses are reported as a component of investment return on the consolidated statements of operations and changes in net assets. The fair value option was not elected for all of the alternative investments due to a portion being reported on the equity method and not having readily determinable fair value.

Note 16: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Allowance for Net Patient Service Revenue Adjustments

Estimates of allowances for adjustments included in net patient service revenue are described in Notes 1 and 2.

Medical Malpractice Claims

Estimates related to the accrual for medical malpractice claims are described in Notes 1 and 6.

Litigation

In the normal course of business, the Hospital is, from time to time, subject to allegations that may or do result in litigation. Some of these allegations are in areas not covered by the Hospital's captive insurance program (discussed elsewhere in these notes); for example, allegations regarding performance of contracts. The Hospital evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of counsel, management records an estimate of the amount of ultimate expected loss, if any, for each of these matters. Events could occur that would cause the estimate of ultimate loss to differ materially in the near term.

Reid Hospital and Health Care Services, Inc.

Notes to Consolidated Financial Statements

December 31, 2016 and 2015

Self Insurance

The Hospital has elected to self-insure certain costs related to employee health insurance programs. In connection with the self-insurance program, the Hospital purchases reinsurance to protect it from catastrophic losses per occurrence. Costs resulting from noninsured losses are charged to expense when incurred.

Investments

The Hospital invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the accompanying consolidated balance sheets.

Note 17: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the consolidated financial statements were issued.
