

## INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

*We Protect Hoosiers and Our Environment.*

100 N. Senate Avenue • Indianapolis, IN 46204  
(800) 451-6027 • (317) 232-8603 • [www.idem.IN.gov](http://www.idem.IN.gov)

**Eric J. Holcomb**  
*Governor*

**Brian C. Rockensuess**  
*Commissioner*

March 1, 2023

A link to IDEM's 2023 Risk-based Closure Guide (R2) Published Level Tables 1 and 2 as well as a short table is, or soon will be, available on the IDEM Cleanups Screening and Closure Level Tables webpage at [IDEM: Environmental Cleanups: IDEM Screening and Closure Level Tables](#). IDEM's 2023 R2 Published Level Tables are effective beginning March 1, 2023. The explanatory text remains unchanged.

The 2023 version of Table 1 includes all of the chemicals found in the 2022 table with the exceptions cypermethrin and dibenzothiophene.

The 2023 version of Table 1 also incorporates updates by the U.S. EPA for asulam, p,p'-DDD (DDD), p,p'-DDE, cis-1,2-dichloroethylene, ethyl tertiary butyl ether (ETBE), MCPB, and thallium carbonate based upon new source data for chemical parameters and toxicity values. Most notably, cis-1,2-dichloroethylene now includes vapor published levels.

Further information on the changes for 2023 can be found on the U.S. EPA's [Regional Screening Levels \(RSLs\) -- What's New](#) webpage. IDEM will continue to monitor the U.S. EPA's progress as they develop regulatory screening levels for additional PFAS not currently included in the U.S. EPA Screening Level Tables.
