From 2007 to 2021, the Partners for
Pollution Prevention have...

Reduced close to 17.5 billion
pounds of air emissions

This included almost 67 million
pounds of air toxics reductions
and 15.7 billion pounds of
Carbon Dioxide (CO₂)
reductions

Conserved over 41.7 billion
kilowatt-hours of electricity

A large industrial gas processing facility, likely a compressor station or wellhead, featuring prominent yellow and silver pipes and valves. The equipment is situated on a gravel pad under a clear blue sky. In the background, there is a covered walkway and various other industrial structures.

Conserved
close to 296
billion therms
of natural gas

Conserved just under 7.3
billion gallons of water

Reduced almost 70.4
million pounds of water
pollution

The image shows three large, cylindrical drums, likely for hazardous waste, stacked on a wooden pallet. The drums are blue with a yellow band around the middle. They are arranged in a row, with the middle one in the foreground and two others behind it. The pallet is made of wooden slats. The background is a plain, light-colored wall.

Reduced over 809 million
pounds of hazardous waste

Eliminated almost 186 million pounds of solid waste out of their processes

Recycled 2 billion pounds of materials

Preserved 32 acres of land and habitat

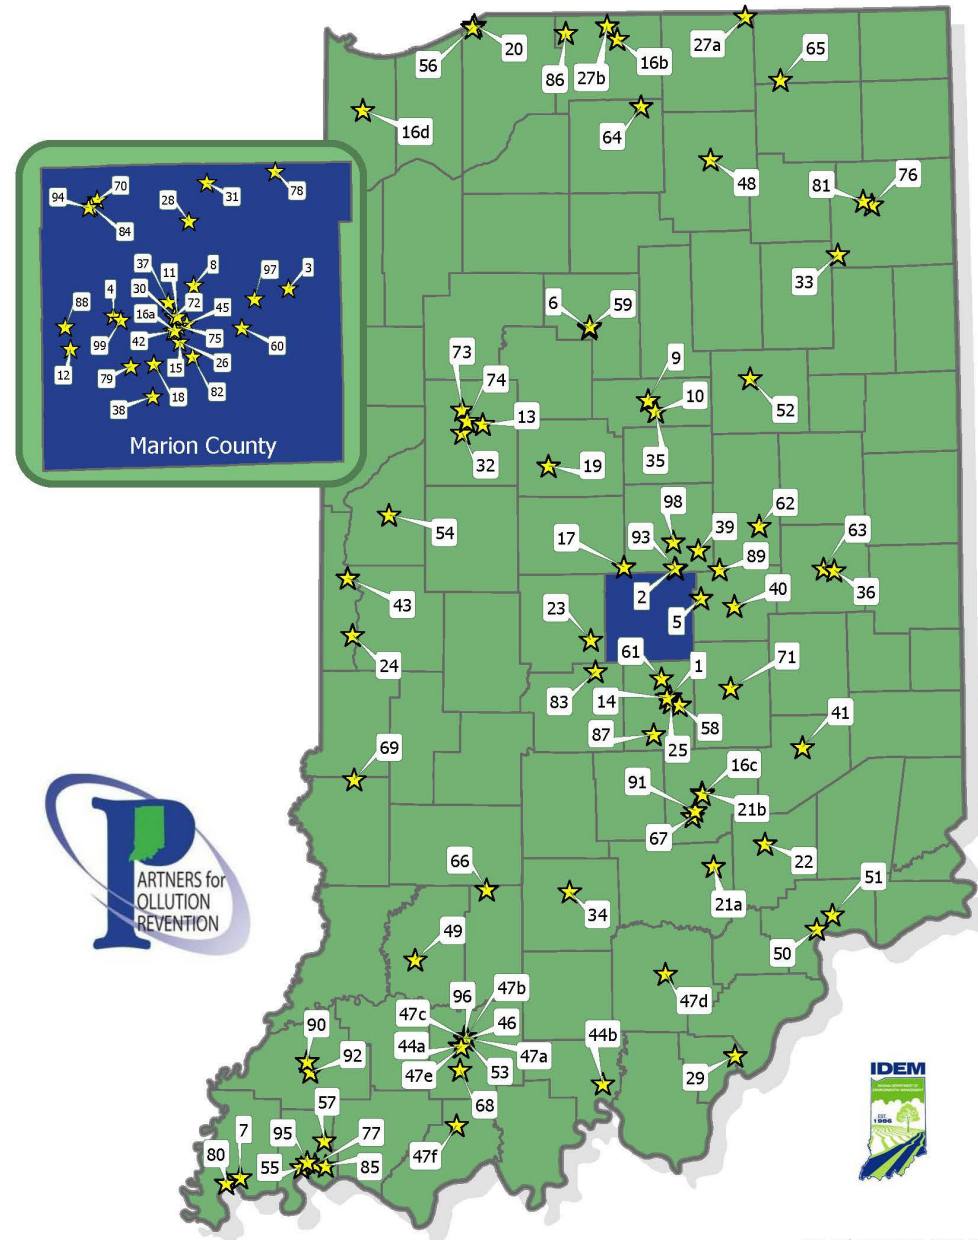

Data for these total emission and waste reductions came from the Annual Partners Recertification (APR) reports submitted from members in 2008 through 2022 covering fifteen year's worth of data.

Current Membership - 99

3 new members
since the 2021

Marketing

Please help us grow this partnership by:

- Joining the LinkedIn group: <https://www.linkedin.com/groups/13573197>
- Inviting your business colleagues from other companies to attend meetings and join the group
- Distributing Partners materials at conferences or meetings that you may attend - A Partners for Pollution Prevention brochure is available for download at <https://www.in.gov/idem/partnerships/partners-for-pollution-prevention/about-partners/>

Partners being inducted today

INTERNATIONAL  PAPER

Newport Mill
Cayuga, IN

Accepting on behalf of International Paper – Newport Mill is:
Gary Reed, Environmental Engineer

Pollution Prevention Scholarships

The Executive Committee offered \$1,000 scholarships to three Indiana schools. The criteria required the recipient to be:

- Graduate or Undergraduate student and Indiana resident.
- Interested in pursuing industrial sustainability and/or pollution prevention in industry.

PURDUE

ENGINEERING

ENVIRONMENTAL AND
ECOLOGICAL ENGINEERING

Aaron Harp

Abigail Troy

Mark Lee

SAVE THE DATES!

Partners Quarterly Meetings

All are welcome to attend, find more information at <https://www.in.gov/idem/partnerships/partners-for-pollution-prevention/partner-events/>

Date	Host	Location
December 13, 2022	Toyota Material Handling	Columbus, IN
Spring 2023	Elanco Clinton Labs	Clinton, IN
Summer 2023	Caterpillar Lafayette Engine Center	Lafayette, IN
September 2023	26 th Annual P2 Conference	Indianapolis, IN

CONFERENCE EVALUATION

Please take time to fill out the conference evaluation TODAY! We have conveniently made it simple to rate each session as it is completed. Access the survey from the QR code and it will stay open until you hit DONE.

Your feedback is so important to help us evaluate this year's conference, while at the same time planning for the next events from the Partners for Pollution Prevention.

The 25th Annual
Indiana Pollution Prevention Conference and Trade Show
September 21, 2022
