**Re: EPA Certified Renovator Training**

---

**Notice: RED-19-31**

The Indiana Housing and Community Development Authority is pleased to Partner with the Indiana Builders Association to provide an Environmental Protection Agency Lead Renovation, Repair and Painting (RRP) Certification Course. The EPA RRP Rule requires any firms performing renovation, repair and painting projects which disturb lead-based paint in homes, child care facilities and pre-schools built before 1978 be RRP certified and use certified renovators.

The Course will include eight hours of interactive training on the RRP regulations, and include training on methods to identify lead-based paint. The Course also offers two sessions for hands-on training. Satisfactory completion of the classroom and hands-on portions of the trainings and passage of the course exam will enable the trainee to be fully certified as a Renovator by the EPA to supervise and perform renovation, repair and painting activities in target housing and child-occupied facilities.

The Course will be held July 16-17, 2019 at the Ivy Tech Community College – Lawrence Campus, Fairbanks Center at 9301 E. 9<sup>th</sup> Street, Indianapolis, IN 46216.

The fee for the Course is \$99 which includes refreshments, lunch and training materials. Registration is limited to 40 persons. The deadline to register is July 2, 2019.

To register and for more information on the Course, please visit the [Indiana Builders Association Event's site](#).
