

# Stay Connected with INDOT

INDOT's central and district offices play an important role in planning and programming activities, including coordinating with Metropolitan and Regional Planning Organizations, consulting with local officials, and conducting public involvement activities.

## Next Level Indiana

Indiana is taking transportation and logistics to the next level. Next Level Roads, a sustainable, data-driven plan to fund roads and bridges over 20 years, fully funds INDOT's asset management plan for existing state-maintained highways and funds projects to improve safety and increase mobility along the state highway system. This plan will deliver 95% of overall pavement and 97% of overall bridges in fair or better condition by 2037.

The Next Level Roads plan enhances Indiana's economic competitiveness and job creation by improving road conditions, making highways safer, reducing congestion, and increasing mobility. A statewide, interactive map of current and future INDOT projects is available at [nextlevelroads.com](http://nextlevelroads.com).

## GovDelivery

GovDelivery is the state of Indiana's agency subscription service. It is used by all state agencies to directly communicate to key audiences and the public. This is a great way for local elected officials and the public to stay up-to-

date on the latest projects, road closures, public input sessions, funding availability, and important deadlines. You can subscribe to information specific to your location and interests.

Sign up to receive email or text message alerts about INDOT projects and programs at [subscriptions.in.gov](http://subscriptions.in.gov).

## INDOT4U

INDOT provides citizens and business customers with a single point-of-contact to request transportation services, obtain information, or provide feedback through multiple channels of communications.

INDOT Customer Service can be reached by calling 855-463-6848, visiting [INDOT4U.com](http://INDOT4U.com), or emailing [INDOT@indot.in.gov](mailto:INDOT@indot.in.gov). Each inquiry is recorded and tracked to ensure a timely and accurate response.

## TrafficWise

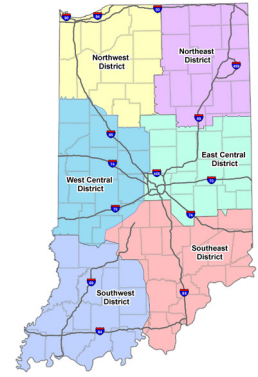

TrafficWise provides information about road conditions, traffic speeds, closures, lane widths, and bridge weight restrictions for both motorists and truck drivers. Visit TrafficWise at [511in.org](http://511in.org).

## INDOT Mobile App

INDOT's mobile app features roadway information, construction map, plow tracking, INDOT roadway cameras, and our Report a Concern feature. The mobile app is available in the App Store and Google Play by searching for INDOT Trafficwise.
