

Contract R-39093
I-69 Added Travel Lanes and Preventive
Maintenance
Delaware and Madison County

ROADWAY IMPROVEMENTS:

- Limits of Added Travel Lanes (8 miles) vs. Pavement Rehabilitation (6 miles)
- Rehabilitation of 20 bridges

Project Scope (continued)

- New Signs
- New Interchange Lighting
- New Traffic Signals
- New Pavement Markings
- New Guardrail / Safety Features
- Wetland Mitigation

I-69 MAINTENANCE OF TRAFFIC:

- Work Zone Speed Limit shall be 55 mph.
- Work Site Speed Limit shall be 45 mph.
- Two lanes of traffic shall be maintained in each direction with the use of crossovers and contra-flow lanes.
- Night-time lane closures will be used
- Local detour routes will be used during closure of Columbus Ave. and CR 400 W

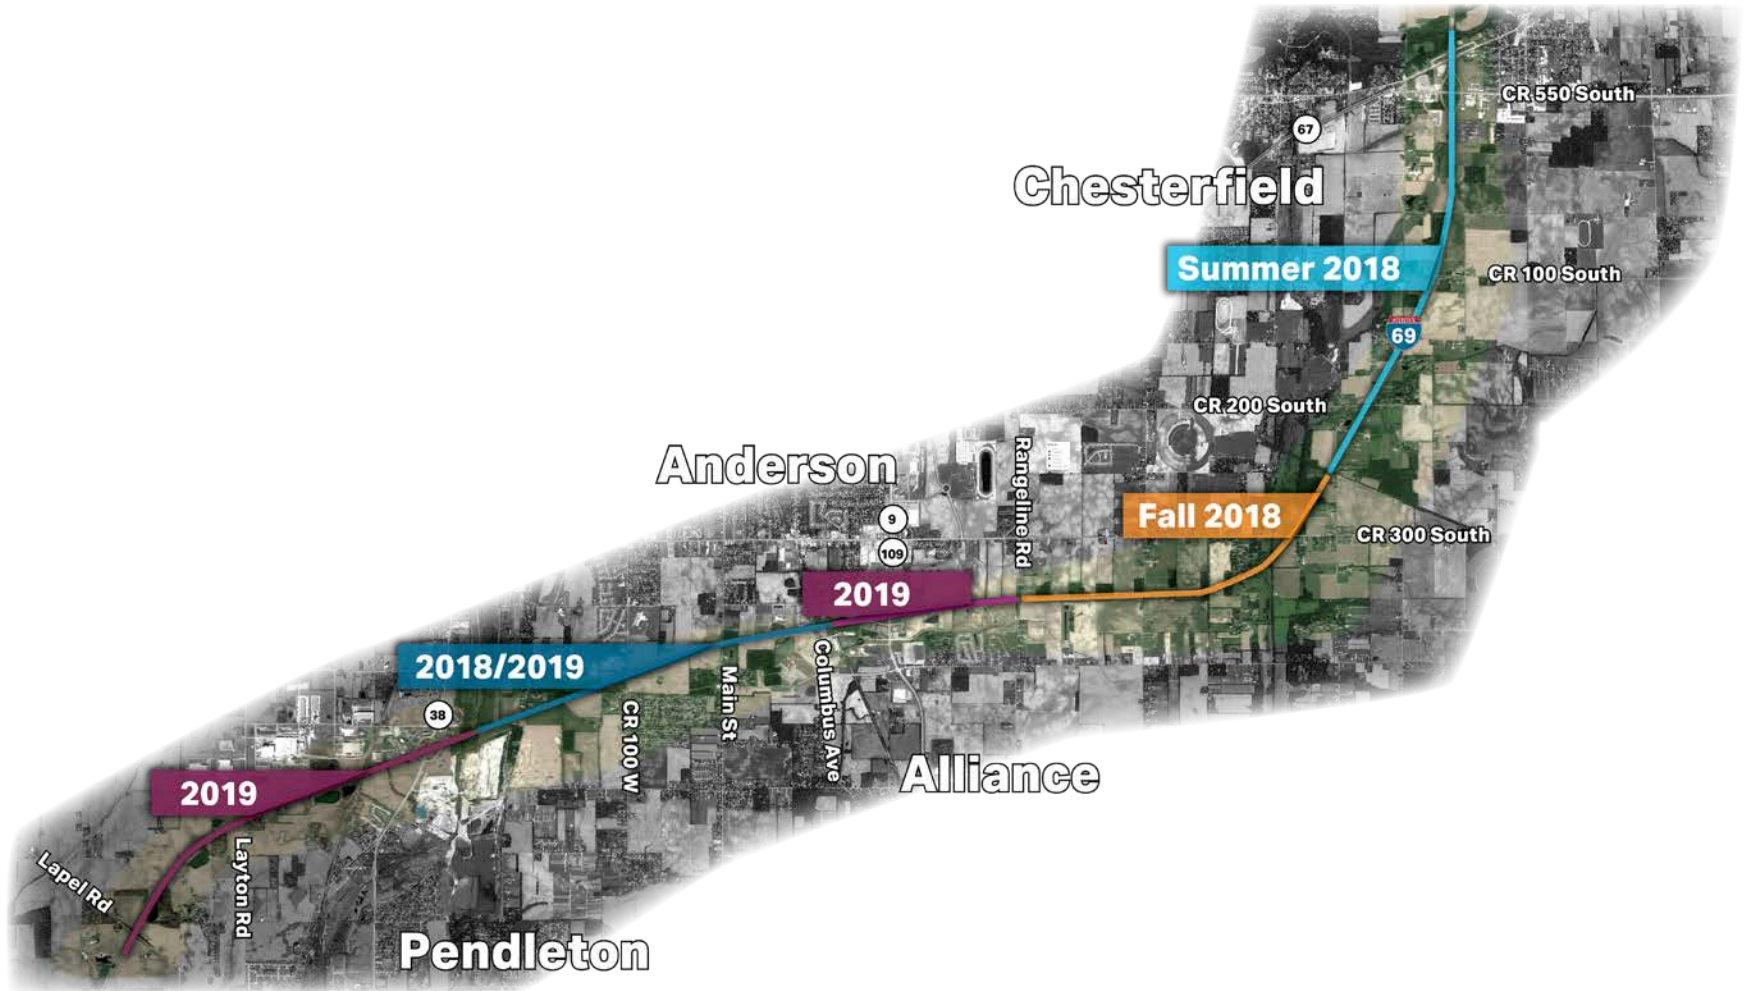

ASPHALT TEST STRIPS :

- In the Added Travel Lanes Sections, twenty two different test strips will be constructed.
- Primary objective: to explore options for more cost-effective pavement structures
