

STATE ROUTE 22 BRIDGE AND ROAD RECONSTRUCTION – TOWN OF UPLAND, IN DES. 1383460 & 1800168

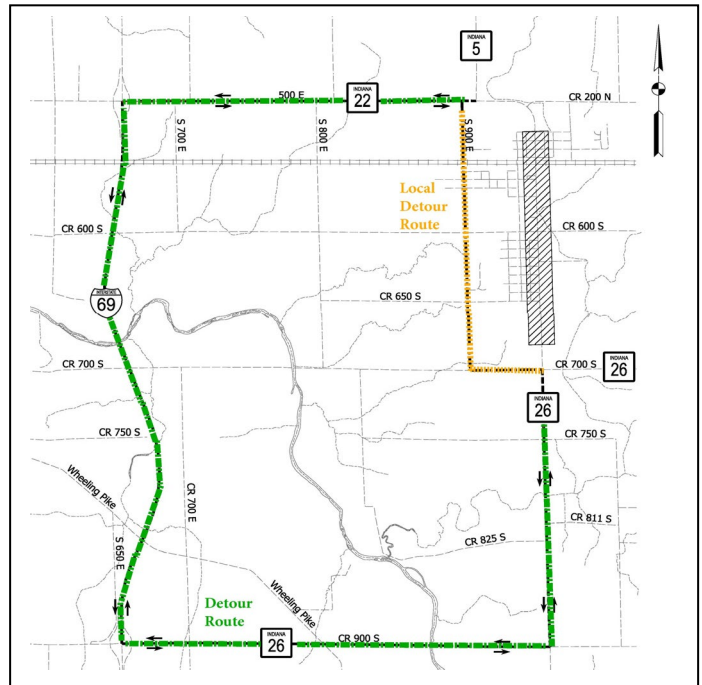

PROJECT DETAILS

The purpose of this project is to address deteriorated pavement and bridge conditions on SR 22 within the project limits, improve pedestrian facilities, and provide streetscape amenities within downtown Upland. Proposed improvements include a bridge replacement over the CERA railroad, full-depth pavement replacement from Urban Street to the entrance of Taylor University, improved pedestrian facilities as needed, and drainage improvements. Additionally, within downtown Upland, streetscape, including on-street parking, sidewalk bump-outs, and upgraded lighting is proposed.

During construction, SR 22 will be closed to through traffic. One-lane, one-way operations will be maintained in the construction zone for local access only. The planned detour will utilize SR 22, SR 26, and I-69 (shown in the graphic to the right-in green). Access to residences and businesses will be provided at all times.

Permanent and temporary right-of-way (ROW) is anticipated in order to construct the proposed project improvements, currently estimated at 7.61 acres of permanent ROW and 0.50 acre of temporary ROW.

PROJECT NUMBER: 1383460 & 1800168
PROJECT STATUS: In Design
ANTICIPATED CONSTRUCTION START: Spring 2023
ESTIMATED CONSTRUCTION COSTS: Approx. \$10.5M
