

# Tips for displaying these awesome posters:

- These graphics are sized to print on 11x17 paper, but feel free to adjust them down to whatever works for your paper or wall space availability!
- Display these in your break room, mail room, or even in the employee bathroom! Wherever INPRS members are, we want these posters.
- The posters include a QR code, which is designed for the reader to scan with their phone's camera. The QR code leads to our link-in-bio page (<https://bit.ly/m/INPRS>) where they'll find all the info they need to plan for the retirement journeys they deserve.
- Feel free to send these out to your favorite human resources people for their retirement plan communications tactics.
- We'd love for you to display these in your work space and for your colleagues to as well. We're betting that a vision of retirement is pretty inspiring, and that the more frequently they keep up with their INPRS account, the more amazing their retirement futures could be.
