

UNARMED RESPONSE TO AN ACTIVE SHOOTER

**PREVENTION
ESCAPE/RUN LOCKDOWN/HIDE
FIGHT**

Under the direction of Governor Mike Pence and Superintendent Doug Carter, the initiatives to improve the safety and security of schools, places of commerce and churches across our state continues to expand and are of the highest priority. The Indiana State Police "Unarmed Response to an Active Shooter" training was developed internally through a comprehensive review of actual events and has been utilized across our nation to increase the safety and security of our citizenry. Since the inception of this internationally recognized training program, the prevention and response model has been presented in more than 300 venues and to more than 18,000 participants (as of December, 2015). Indiana State Troopers are trained and prepared to present the program to you or your organization.

With continued support from Governor Pence, the Indiana State Police has developed strong relationships with the Indiana Department of Education's School Safety experts, local law enforcement partners and other government agencies to coordinate training and safety services. We strive to be inclusive so that any person, agency or entity has access to this very important and time sensitive opportunity.

We look forward to serving you!

This **FREE PROGRAM** expands the traditional Run, Hide or Fight model by providing **PREVENTION options on the front end and expanding each step to ESCAPE/RUN LOCKDOWN/HIDE or FIGHT.**

BE PREPARED - HAVE A PLAN

Three versions of the Unarmed Response to an Active Shooter Event have been developed:

1. Schools and buses
2. Places of commerce
3. Terrorist related

The “Unarmed Response to an Active Shooter” programs focus on strategies that may be exercised to increase our chances of preventing one of these horrific events. Should you be caught in an active shooter event, the program also provides options that may be exercised to increase your chances of surviving the event.

The PowerPoint presentations for all three programs are posted on the Indiana State Police website:

“Unarmed Response to an Active Shooter”
Indiana State Police website
<http://www.in.gov/isp>

- ▶ Lesson plans and presenter’s notes are provided.
- ▶ Videos are embedded into the “Unarmed Response to an Active Shooter” PowerPoints that demonstrate the response options that are covered in the presentations. The school version videos were filmed in/on Indiana schools/buses.

If you wish to schedule a training program, please visit the Indiana State Police, Active Shooter Preparedness website and select the *Schedule a Presentation* link.
