TN
STATE DATA CENTER
TN

Indiana State Data Center

- A data specialist is available to navigate patrons through the research process
- Provides data and training services to all sectors of the community, including government agencies, businesses, academia, nonprofit organizations and private citizens
- Current and historical statistical resources with emphasis on the U.S. census and other federal and state statistical sources

Resources

- Historical census publications
- Current and historical statistical data from non-census resources (internet, books, microforms, CD-ROMS, DVDs, etc.)
- Miscellaneous files collected from a variety of sources
- State Data Center webpage with links to all kinds of Indiana-specific information and data; organized by topic

HOURS:
